

## **2019-09 Monthly Report International Projects**

This month we have been contacted by 2 different Rotary clubs to consider supporting initiatives that they have become involved in. We will review them and if we feel there is merit in adding to or changing some direction of our current planned projects we will present them to the club membership for consideration.

### **Hippo Water Roller**

The Rotary Club of Gibsons BC would like to share with us information on their successes with the Hippo Water Roller Project. This is a simple unique low cost method of delivering to individual homes in the African countries without any infrastructure.

This video will show you what a Hippo Water Roller is.

### **Guatemala Literacy Project**

Colin Thacker of The Rotary Club of North Bay (also the current president of the Canadian division, Canadian Friends of Cooperative for Education), has invited us to consider supporting the Guatemala Literacy Project (GLP).

This year, the international partner for this Global Grant (#1989785) is the Rotary Club of Sudbury. Every dollar donated by a Canadian Rotary Club or District is matched one-to-one. With the additional matching funds from The Rotary Foundation and the Government of Canada, this has the potential to multiply your contribution by 6.5.
