

COMMUNITY DEVELOPMENT/ SERVICES REPORT

January 2021

The focus for this month has been on examining the organizations in the community that currently have our support and considering the addition of further organizations. The committee examined the level of support that has been delivered to groups and organizations this Rotary year and those that have not with priority on need and projects not funded by various levels of government.

Due to consultation with Gay Ratcliffe, Mike Mason and myself, five organizations have been added to our Municipality approved list of recipients. The revised list has been circulated to Executive.

Currently the Community Services committee is reviewing the list of possible recipients for funding and will make decisions after the budget review.

There are no reports from other committees under Community Development/ Community Services.
