The Gateway Gazette

We had a different kind of meeting tonight.

Eric and Dale Robinson invited the club to visit their latest entertainment project located on the main drag in Sauble Beach. For those present, we got to experience Laser Tag for what will likely turn out to be our first and last time. Not because it wasn't fun, but because we probably will not be able to find anyone willing to play with us.

Following an Eric explanation, we got to suit up and get our High-Tec vests and guns ready for action. It was amazing to experience the effect of shooting the opposition and, of course, being shot by the opposition. The special lighting effects and the various games added to the entertainment.

We were all surprised to notice how warm we got as we moved around the room, dodging bullets and shooting our friends. I think Eric actually won, but everyone was having so much fun, we really didn't care.

Thanks to Eric and Dale for giving us this experience. It was enjoyed by all. If we were only younger, we would have had even more fun.

Trevor reminded us about some upcoming events and plans for the coming year.
